Corrigendum

Corrigendum for the Tender no. AllMS/Pat/Tender/Paediatrics /Neonatal Ventilator/2015 dated 22.04.2015

1. Number of required Advanced Neonatal Ventilator should be read as “04 Nos” instead of “02 Nos”.

2. The reusable breathing circuits should be provided from the Original Equipment Manufacturer (OEM), and as 2 reusable breathing circuits per ventilator.

3. Disposable components of nasal CPAP assembly should be provided from OEM, and not from any other company. Scope of supply should be read as follows:-

   (i) Disposable Prongs: 20 each for babies weighing between 1000-1500 gm, 1500-2200 gm and 2200-3000 gm; total of 60 per ventilator per year.

   (ii) Disposable Masks: Same as above; total of 60 per ventilator per year.

   (iii) Adaptor, Silicone hoses with connectors, headband/Bonnet with measuring tape for 60 patients per ventilator per year.

   However the rate of all available sizes of these assembly items should be quoted and will be frozen for the period of warranty.

4. Disposable heated breathing circuits suitable for neonatal use (10 circuits per ventilator per year) and for pediatric use (10 circuits per ventilator per year) with disposable chamber compatible with MR850 should be supplied at the beginning of the year for the duration of warranty.

5. Contents mentioned under the heading “Disposables” in the technical specifications stands deleted.

6. OEM should bid the tender directly, and not through any of its agents.

7. CMC rates should be quoted for 5 years post-warranty, however it will not be considered for price comparison.

8. Tender submission date extended from 13.5.15 to 20.5.2015 at 12.00 hrs.

All these abovementioned changes should reflect in the compliance statement of the bidder.
